

FSMA Digests

FSMA Digests was created to provide a space for sharing viewpoints and reflections from FSM professionals. Most FSM-related publishing to date has been primarily academic research, and we saw a gap we wanted to address. This series aims to share non-academic articles, editorials, insights, and opinions from our network. In this same spirit, we use a simplified selection process instead of the more conventional academic peer review process. Anyone may submit an article relevant to the topic or theme of the current edition.

Q1 Edition - Released June 2022

This edition of FSMA Digests' theme is: ***FSM Post-Pandemic: Where do we go from here?***

(We also call for articles on ***topics of your choice*** for publication.)

As we prepare to enter year 3 of the global pandemic, each of us have experienced extreme challenges and changes on both personal and professional levels. We learned during this pandemic that the professional world could adapt to some of the challenges in a variety of ways. We feel that this is the right moment to reflect on the experience over the past 2 years, what systems and norms in the FSM sector have changed, what has improved or failed, and more importantly - how do we move forward?

With only 8 years to go before 2030, the pandemic has created the opportunity to evaluate from a very different perspective - what new approaches should we be implementing? What truly 'hasn't been working? We invite you to share your ideas and solutions in this edition.

6. Please also include 3 Hashtags words that describe your article. (eg. #Kenya #FSMPlan2021 etc.)
